

**ABSTRACT OF THE DISCLOSURE**

5           A ear adornment for allowing a user to adorn an ear of the  
user. The ear adornment includes a frame member being designed  
for selectively engaging the ear of the user. A sleeve member is  
selectively coupled to the frame member whereby the sleeve  
member is designed for being positioned adjacent the ear of the  
10 user when the frame member engages the ear of the user. The  
sleeve member is designed for providing the user with a unique  
appearance when the sleeve member is coupled to the frame  
member.
